Core Concepts: Object-Oriented
Programming (OOP), Data Structures,
SDLC, Debugging, Exception Handling, AI.

SUMMARY

Frontend Developer with a strong foundation in building responsive and user-friendly web applications. Skilled in **HTML, CSS, JavaScript, and ReactJS** with a focus on clean UI, performance, and seamless user experience. Familiar with backend integration using Django and REST APIs. Looking for an entry-level Frontend Developer role to craft engaging digital experiences.

PROJECT

Smart Emotion-Based Activity Recommendation System using CNN

Technologies Used: Python, Flask, OpenCV, DeepFace, CNN, Gemin AI, HTML, CSS, JavaScript.

Published in IRJET | Oct 2025

- Built a responsive user interface using HTML, CSS, and JavaScript for real-time emotion detection.
- Designed clean and intuitive UI to display detected emotions and recommendations dynamically.
- Integrated backend APIs for emotion analysis and recommendations.
- Displayed personalized recommendations (movies, music, activities) in a visually structured layout.
- Collaborated on integrating Gemini AI responses into the frontend via clean, efficient API calls.
- Ensured cross-browser compatibility and optimized UI performance for faster load times.

INTERNSHIP EXPERIENCE

WEB DEVELOPMENT INTERN Freewill

Technologies | Oct 2025 - Nov 2025

- Developed and implemented frontend components using HTML, CSS, and JavaScript.
